### Veterans 1<sup>st</sup> Point (V1P) Lothian

have developed a Resilience guide to help navigate this difficult time. COVID-19 has affected all of us and returning to work or dealing with other worries may be overwhelming. This guide can help you to manage your worry, anxiety and mood to improve resilience and wellbeing. As they say, it's natural to struggle when times are uncertain, so remember to offer care and compassion to yourself, and to those around you.

**Routine** – structure to your day is important. **Exercise** – helps both our bodies and minds. **Sleep** – get enough, set wake up and going to bed times. **Interaction** - is important, perhaps by helping others. **Loved ones** – stay connected, find new ways **Independence** – protect some time for you. **Eat well** – try new recipes, eat fresh and healthy. **New goals** – for now and the future.

**Compassion** – be kind to yourself and others. **Enjoyment** – make time for pleasure distance between your family – the possibilities are endless.
